

Your Community Connection

to Mental Health Services in Milwaukee County

The Milwaukee County Mental Health Board
Community Stakeholder Advisory Council

The Milwaukee County Mental Health Board Community Stakeholder Advisory Council (Advisory Council) is your real-time connection to Milwaukee County Behavioral Health Services (BHS). Council members partner with BHS to support Milwaukee County's vision that by achieving racial and health equity, Milwaukee will be the healthiest county in Wisconsin. The Advisory Council includes individuals from a variety of community groups including mental health services, family members, advocates, caregivers, faith leaders and law enforcement.

The Advisory Council is a structured approved council established by the Milwaukee County Mental Health Board, which governs Milwaukee County Behavioral Health Services, and used to serve as an advocate for consumers to make a difference and improve the health and well-being of the community.

We are here to serve you in the following ways:

- Offer information about the redesigned BHS community-based mental health care model.
- Provide ongoing communication regarding the range of services offered through the BHS provider network.
- Listen to community member experiences with BHS-supported services, including Granite Hills Hospital and the Mental Health Emergency Center (MHEC).
- Understand the needs of the community with regard to mental health services.
- Bring community comments and concerns to the attention of the Mental Health Board.

Our goal is to be the voice of the consumer and provide valuable support and guidance regarding the spectrum of mental health services offered right in your community.
